Wise family practice urgent care

Wise Family Practice Urgent Care Christine W. Holland, M.D., and Chris E. McGee, M.D., are Board Certified Family Medicine specialists with expertise in primary care wellness and preventative care for all ages. They provide urgent care services for acute injuries or illnesses, as well as occupational medicine to keep employees healthy and productive. Their medical practice focuses on weight management through medically-monitored healthy and lasting weight loss programs. The team also offers long-lasting treatment options for seasonal allergies and provides on-site physical therapy for faster recovery and lasting results. Additionally, they offer digital X-ray and radiology services on site, as well as convenient health screenings. Patients have recognized the practice with several prestigious awards, including a Patients' Choice Award and Compassionate Doctor Recognition. Patients can make Wise Family Practice Urgent Care their primary care physician, taking advantage of extended hours and walk-in visits for all healthcare needs. The facility also offers affordable medical care through partnerships with major insurance providers. At Wise Family Practice Urgent Care, we pride ourselves on delivering top-notch care with compassion and empathy to those in urgent need. Our skilled team is dedicated to providing personalized attention and convenience, making us the go-to destination for all your medical emergencies. "Ryan was super helpful and knowledgeable during my pre-opt exam, taking the time to show me how to get the documents I needed quicker." The staff must have been running behind, as we experienced a bit of a wait in the reception area. However, this didn't detract from the excellent service provided by our team, including Aggi Watson, an amazing PA who always puts her patients first. She went above and beyond to ensure my well-being, even when my specialist suggested I was fine, only for it to be revealed that I wasn't feeling well after all. Her dedication is truly inspiring! Bailey also deserves a mention for consistently following through on patient concerns and doing her best to help. Dr. McGee is not only a brilliant doctor but also a kind and genuine individual who has been taking care of my family for 16 years. I feel incredibly fortunate to have him as our physician, even when things get tough. "Dr. McGee is a professional, compassionate, intelligent, and kind physician who always shows concern for my overall wellbeing - physical, mental, social, and emotional health." I couldn't ask for a better doctor, and I'm so grateful to have him on our team! Another standout member of our staff is Dr. Pierce, an exceptional doctor who takes the time to listen and genuinely care about her patients. However, we do recognize that our office staff has room for improvement, as evidenced by some of our patients' experiences with prescription issues and delayed responses. We're committed to learning from these incidents and making necessary adjustments to ensure a smoother experience for everyone. If you're in need of urgent medical attention, don't hesitate to reach out to Wise Family Practice Urgent Care - we're here to help!
