The biological son of a white mother and a half-African-American father, half-Japanese, The Tao Jones, known as T.J. lives with his loving, adopted white family in Cutter, Washington. T. J's foster mother, Abby, is © an abusive child lawyer, and her adoptive father, John Paul Jones, is... © a volunteer and ad litem of the community, which is still © haunted his youth, in which he accidentally killed a child in a driving incident after one night with the mother of the child. © One unhealthy © Mr. physically impressive who refused to join any sports team due to his childhood history of anger management issues. Their involvement irritates much o f the college, which prides themselves on the physical achievements of their students, showing favoritism to their athletes, such as Mike Barbour, a vicious bull. T.J. often finds Barbour harassing Chris Coughlin, an intellectually handicapped student who must unfairly live on the treadmill of an older brother widely admired who died in an aberration accident. John Simet, English teacher and friend of T. J.'s, want to start a swim team to avoid coaching obligations. Simet convinces T.J. to be captain of the swim team and recruit its members, even though the school has no pool. Inspired in spite of the school's pretentious athletics program and its glorification of bullies like Barbour, T.J. sets up a deliberately bizarre crew and motley of six swimmers, including the cognitively slow Chris, the obnoxiously sesquipedalian Dan Hole, the weightlifter and musician Tay-Roy Kibble; The rude, anti social, and Simon-le Craig T. J. expects the whole team to meet the poster requirements to emhara s s the rest of the athletics program and its estimated school symbols. Simet defines the requirements as follows: at each meeting, each team member must exceed their previous score. T The team uses the pool at a local gym as their training center, where T. J. avidaemploys a homeless, middle-aged Ed-goer named Oliver Van Zandt to be the interim coach of team Oliver (I.C. O), a title that gives him the nickname "Icko". Meanwhile, an even crueler friend of Mike Barbour, the racist and alcoholic Rich Marshall, © a die-hard former student of the school's athletics program. Rich recently adopted the imlegitimate half-black son of his young wife, Alicia, and renamed the girl the whitest name he can think of: "Heidi." T. J., who maintains© a close friendship with his childhood therapist, Georgia Brown, accidentally meets Heidi during one of his therapy sessions with Georgia. He thus learned of Heidi's brutal and racist abuse in Rich's hands. When Alicia and Heidi finally acquire a resoaming order against Rich, the Joneses invite them to live in their home, but Rich began to chase the house and make baby-sitters. T.J. swimmers gradually open up about the complexities of their personal lives, and all members, except T.J.'s own, meet the requirements to be marquees. Shocked, the rest of the athletics program, led by Barbour and a proud teacher, Coach Benson, challenge the requirements Simet set for the team. T.J. negotiates a deal with Barbour, offering that if Barbour is smarter than Chris, Benson will have justification for revoking the team's letters of cream. Insulting Chris'© s intellect, Barbour agrees, but Chris easily wins the competition. T.J. fixes some of this sadness by inviting some of the swimmers, as well as his father, John Paul, to form a basketball team. The following year, basketball players beat Rich Marshall's team in a highly-attended tournament. Rich, even more upset by the presenâsa Heidi in the public and see her cheering for the team that beats him, draws a gun and andon. John Paul instinctively jumps between them and picks up the bullet when rich fireworks. Before dying, John Paul reveals to T.J. the name of the woman whose son he killed in the driving accident all those years ago. © imprisoned and, at the funeral of John Paul, Barbour apologizes to T.J. for his inappropriate behavior in the past. T.J. Tracks down the woman John Paul mentioned only to find out that she had a child from her one-night stand with John Paul. The child- now an adult man- ©. Therefore, T.J.'s (adopted) half-brother and his name are couples Kyle. T.J. and Kyle instantly connect and promise to meet o ver the summer. In the new whale talk, Taoism plays an integral part of the plot from the beginning. The protagonist of the novel, the Tao Jones, the © named by his biological mother after the Taoist Tao Te Ching book. When he enters the school, he is © Often intimidated by his strange name. To avoid being intimidated and embarrassed by his colleagues, he starts calling himself T.J., his initials. It's very clear that his name is © an indicator of what your personality will be. T.J. Name precludes that it will be connected to T ao in a different way from the obvious. The author of whale talk, Chris Crutcher, inspires in many elements of Taoism to create T.J.'s personality.
