I can go on and on. Or record a voice message to connect quickly.Share daily moments through StatusStatus allows you to share text, photos, video and GIF updates that disappear after 24 hours. End-to-end encrypted group chats let you share messages, photos, videos and documents across mobile and desktop.Stay connected in real timeShare your location with only those in your individual or group chat, and stop sharing at any time. If you say you will improve, then do as you promise! Thanks for the review.Please note that you only have about **an hour** after you've sent a message to delete for everyone.Messages that are successfully deleted for everyone will be replaced with.**This message was deleted**To delete messages for everyone:1. You can quickly view your contacts who are on WhatsApp and start messaging.High quality voice and video callsMake secure video and voice calls with up to 8 people for free*. It's so annoying to be changing the name of the group to the topic when you could open the group and the topic is pinned at the top let the admin have the option of turning it on or off. No one outside of your chats, not even WhatsApp, can read or listen to them.Simple and secure connections, right awayAll you need is your phone number, no user names or logins. That probably won't be secure either anymore! Let's see what will happen going forward with all the breaches and the unsecured and less encryption . The following data may be collected and linked to your identity: Purchases Financial Info Location Contact Info Contacts User Content Identifiers Usage Data Diagnostics Privacy practices may vary, for example, based on the features you use or your age. It's used by over 2B people in more than 180 countries. One moment I'm using it, the next moment, it won't work no matter what. Your calls work across mobile devices using your phone's Internet service, even on slow connections.Group chats to keep you in contactStay in touch with your friends and family. If you say you will improve, then do as you promise! What happened to what's app after the update. [2] Implement a pinned topic or have a topic option in groups. I have a lit of free space on my phone by the way, so I'm not sure what the cause is. It's simple, reliable, and private, so you can easily keep in touch with your friends and family. Open the WhatsApp chat containing the message you want to delete.2. Tap and hold the message :: tap **Delete** * Optionally, select more messages to delete multiple messages at once.3. Tap the **trash can** icon :: *Delete For Everyone** **Note**:* In order for messages to be successfully deleted for everyone, both you and your recipient must be using the latest version of WhatsApp.* Recipients using WhatsApp for iOS may still have media you sent saved to their Photos, even after the message is deleted from the WhatsApp chat.* Recipients may see your message before it's deleted or if deletion wasn't successful.* You won't be notified if deleting for everyone wasn't successful.* You only have about an hour after you've sent a message to request to **Delete for Everyone** The developer, WhatsApp Inc., indicated that the app's privacy practices may include handling of data as described below. Not at all! Improvements doesn't mean to take away what worked well for many. Learn More Developer Website App Support Privacy Policy Other than that I love the app 5 stars hope the developer take these into consideration. It happens so suddenly. Force quitting the app, restarting my phone of powering the phone off then putting it back on after some time doesn't help. I can share to other apps such as Mail, Evernote, Twitter, but sharing to WhatsApp fails a lot. I still see the notifications from messages coming in, but can't do anything about them.Also, many times I can't share media to WhatsApp from other apps. Contact your provider for details.-----If you have any feedback or questions, please go to WhatsApp > Settings > Help > Contact Us Jan 18, 2022 Version 22.1.73 I love the app been using it since they debut and dominating the cross platform messaging that de-throne the blackberry messenger and the blackberry phone across the Americans now a few added features that a lot of people would gladly say yes to is [1] Adding more pin chats instead of just 3 pins let's have 5-10 pins I believe that would be a fair number of chats to add to the top. Now it's started freezing on launch again and I can't even successfully delete any media from my WhatsApp to try to fix it. What a disappointment this app fell short! Many feel the same! Security? WhatsApp is a very great app that has become an integral part of many lives, but recently I've been having some trouble with it on my iPhone X. I sometimes have a few seconds after relaunching it to move around before it freezes again and that helped me resolve it the first time it happened by deleting over 40 GB of media from chats. It got worse, just emailing the group name is changed to the topic and you wondering who added you to a group you don't want to be in. What about being able to delete what you sent on both sides nit just from my chat, it used to not any more! You said there were improvements? improvements is enhancing adding not removing what works. You can choose to share status posts with all your contacts or just selected ones.*Data charges may apply. WhatsApp works across mobile and desktop even on slow connections, with no subscription fees* Private messaging across the worldYour personal messages and calls to friends and family are end-to-end encrypted. WhatsApp from Facebook is a FREE messaging and video calling app. It freezes once I open it and no matter how long I wait for, it doesn't unfreeze.
