Online Repository of Case StatisticsNational Judicial Data Grid (NJDG), a agship project implemented under the aegis of the e-Committee Supreme Court of India, is a system for monitoring pendency and disposal of the cases in High Courts and Subordinate Courts. NJDG provides a comprehensive database of orders, judgements, and case details of District and Subordinate Courts and High Courts. The statistics of pendency at National, State, District and at Individual Court level is available to anyone visiting the National Judicial Data Grid portal.It also serves as a decision support system to the management authorities like Supreme Courts and respective High Courts, to monitor pendency on varied attributes for effective decision-making.NJDG provides the consolidated figures of pendency of cases in Judiciary Statistical data is automatically updated daily Pending Civil and Criminal Cases segregated into varied categoriesInformation pertaining to Institution and Disposal of cases is shownStatistical figures are provided in drill-down mannerServes as National Judicial Data WarehouseDeveloped using elastic search technology NJDG has brought huge transparency and accountability in the system by displaying complete pendency and disposal of cases across the country in public domain. NJDG has been instrumental for judicial planning, monitoring and remote administration by High Court judges, District Judges, and High Court Registry. Timely inputs from NJDG are assisting the authorities in framing policies and making decisions towards judicial governance.NJDG is acknowledged as innovation under the Ease of Doing Business initiative of the Government of India.For more details, kindly visit:
