This edition presents the exact same content as the traditional book in a convenient version of loose and perforated leaves with three holes. Books A la carte also offers great value for your students: this format costs 35% less than a new textbook. Human Physiology: An integrated approach was grounded with its full coverage of molecular physiology smoothly in a traditional systems approach based on homeostasis. The newly revised sixth edition features a major reorganization of the early chapters to provide the best foundation for the course and features of the new art that optimize the revision and the essential topics so that students can access them more easily on an as-needed basis. Recognized as an outstanding educator and active learning enthusiasts, Dr. Silverthorn incorporates time-tested classroom techniques throughout the book and presents a comprehensive and up-to-date coverage of new scientific discoveries, biotechnology techniques, and disorder treatments. Dr. Silverthorn also CO-Authorized The Student Workbook and the accompanying Instructor's Manual, ensuring that these assistants reinforce the pedagogical focus of the book.
