HISTORY OF PRESENT ILLNESS: Patient is a 53-year-old female with multiple medical conditions including hypertension, COPD, atrial fibrillation, GERD. Patient was reportedly found yesterday at home with respiratory failure. Patient was intubated in the field and transported to AGH. Since her admission she has been noted to have diffuse myoclonic jerking EEG which she has been treated on propofol, Depakote and Dilantin. Monitoring is being continued to evaluate the frequency and management of myoclonus.

CURRENT MEDICATIONS: Patient's current medications in addition to propofol, Depakote and Dilantin include: Ceftriaxone, metoprolol, pain regimen. Patient is also on morphine drip.

EXAMINATION: Patient is deeply comatose. Her pupils are . She does have intermittent myoclonic jerking in a diffuse distribution. She does not withdraw extremities to pain. There is some spastic rigidity in the lower extremities. Her deep tendon reflexes are trace positive. She does have positive Babinski bilaterally.

IMPRESSION:  
 1. Myoclonic encephalopathy.  
 2. Myoclonic jerking secondary to above.

RECOMMENDATIONS: Patient has had a CT scan of head which is negative. EEG done earlier today was read as showing low voltage with intermittent muscle artifact secondary to the apnoeic.

I would suggest continuing patient on current regimen of propofol, Depakote and Dilantin. We will repeat patient's EEG in morning. Prior to the EEG her propofol will be discontinued and she will be administered vecuronium. Propofol is unfeasible. We will make further recommendations once we have reviewed her follow-up EEG studies.

"Tonight I want to take this moment to not only shine a light on the lack of accountability, community connection, and trust that is between the community of Anchorage and it's police department, but to call for action to be taken toward stronger intervention from the assembly and establishing a system of accountability for APD," one member of the public said. "We will continue to ask for questions of the assembly and APD until body worn camera policy is implemented, and we'll continue to push for opportunities to comment and be heard on this issue," another testifier said.
